mire City PRESS-RECORD Sunflowers Becoming an Important Illinois Crop

By WARREN W. BUNDY University of Illinois Extension Adviser Illinois farmels planted 36,000 acres of sunfiders last year and harvested 47,000 acres, ac-ording to the Illinois Coopera-tive Corp Reporting Service. About 1,000 acres of sunflow-county.

The sudden increase in sun-flower production in 1972, the first year for sunflower produc-tion estimates, was due largely to the government program which permitted sunflowers to be grown on set-aside acres with a reduction in the set-aside acreage payment.

The government program for 1973 will again allow sunflowers to be grown on set-aside acres, but at a much higher land charge than in 1972.

coarge than in 1872.

A representative of a company interested in sumflower marketing contacted me last week as part of his efforts to try to determine the extent to which farmers may be interested in growing sunflowers this year.

Deciding what and how much to plant of each crop is a diffi-cult job that every farmer faces each year. It is also one of the most important because of the effect crop decisions have on farm income.

Choice of crops is even more difficult this year because of uncertainties regarding 1973 production and prices.

Demand for grain and soy-beans for export has been strong during recent months. Whether this demand will con-tinue through 1973 is unknown.

Good News and Bad News on Proposed New Metropolitan Airport in Illinois; Need for a Prompt Start Remains

On the basis of these points, it might be inferred that the airport proposal was somehow lacking, but the opposite is the case; the Federal Aviation Administration in a detailed resume Tuesday said the Waterloo site is acceptable in every way for meet expansion of Lambert Field or construction at Smartt Field or the Companion of Lambert Field or construction at Smartt Field or the Companion of Lambert Field or construction at Smartt Field or the Companion of Lambert Field or construction at Smartt Field or the Companion of Lambert Field or construction at Smartt Field or the Companion of Lambert Field or construction at the Companion of Compan

It was the delay these opponents obtained that helped make Gov. (The Illinois state income tax and a national magazine's assertions about alleged mayor associates were perhaps the chief factors in the two election defeats.)

St. Louis media, incidentally, again his week implied that Illinoisans are thieves; residents of this state are trying to "steal" an airport, it was considered to the standard of the standard of the standard of the standard of the rump will be standard of the rump of the standard of the standard which is not the agency administering Lambert or any other airport.

SQ, matrix/discrete circultry Pioneer decoder/amplifier with 4 level meters and a pair of EV-14 10", 2-way speakers for converting high-powered stereo systems to Quadl Sold separately for \$429.85.

THE CMC POLICY

"MAKING THE RIGHT PRODUCT SELECTION IS IMPORTANT, BUT YOU SHOULD ALSO CONSIDER WHAT HAPPENS AFTER YOUR PURCHASE" At CMC Stereo Centers, we offer performance, reliability, and value when you purchase a stereo component system. Here's why ...

30-DAY PRICE GUARANTE

If you should find identical merchandise that you can purchase at a lower price than we sold it to you, CMC will cheerfully refund the difference to you in cash within 30 days from date of purchase. All merchandise must be available from another established local area merchant, be the same make and model, and be new — not a floor sample. You are to make a \$5.00 deposit, birging the sales slip and receipt to us, showing the lower price, and we will refund the difference to you plus your \$5.00 deposit.

ONE-YEAR SPEAKER EXCHANGE

If, for any reason within one year after the purchase of a component system from CMC, you would rather have a different speaker system, you will receive FULL CREDIT of your purchase price less any cabinet or speaker damage, toward the list price of any equivalently or higher-priced speaker.

90-DAY EXCHANGE PRIVILEGE

Any other component in your system may be exchanged within 90 days of purchase for an equivalently or higher-priced unit. You only pay the difference, if any, and return the item in its original carton in like-new condition with your receipt of purchase.

TRADE-IN POLICY

CMC will take your old equipment, purchased at CMC regardless of age or condition, and make you the fairest offer possible toward any new equipment we sell.

WHAT IS ABORTION **REALLY ALL ABOUT?**

A special lecture will be given Thursday, March 8 at St. Margaret Mary's parish hall, 1900 St. Clair, Granite City by Mrs. Felicia Goekin. Lecture directed to teenagers.

Time: 8 p.m.

It takes more than new drapes and new paint to make a new bathroom. What it really takes is "proper planning." Over the years, most people have come to take bathrooms for granted, unaware of the wide range of planning and color possibilities available. Not so at Do-It-Yourself Home Center. Whether you do the entire job yourself or have us recommend qualified craftsmen to do the job for you . . . the first thing we'll do is sit down and help you plan a bathroom that both satisfies your needs and appeals to your tastes. And when we're through, you'll have a well-planned design of a bathroom that both satisfies your needs and appeals to your tastes. And when we're through, you'll have a well-planned design of a bathroom that both satisfies your needs and appeals to your tastes. A sign to direct southbound traffic on Nameoki Road toward the St. Elizabeth Hospital Trauma Center carries an arrow which points directly into the Granite City High School parking lot. The entrance to the high school is about 10 feet before the sign and some passersby fear motorists unfamiliar with the area may turn into the high school when seeking urgent medial assistance, rather than passing the sign and curving rig ht onto Madison Avenue, the suggested route, to the nine-blocks-distant, hospital.
